

# How much does it cost???

When you contact Grasso Funeral, Memorial and Cremation, you will be speaking with the owner, Pete Grasso. We are family owned and operated and *our thinking is just like yours*. When we access the internet, we are interested in only one thing: I want to get the information I came here for!!! You are not being tracked. No one will call you unless you contact us first and request a return phone call. Our goal is to provide you with the necessary information to make a decision which sometimes is in the worst of conditions. We establish trust with you from the very beginning and maintain the trust throughout. If the information is not clear, call us. We will share our years of experience with you to help you making your decisions on funeral, cremation, or memorial service arrangements. You are never under any obligation. We simply treat people the way we wish to be treated.

## Quick reference Guide of Service Offerings

The Quick Reference Guide is provided to show examples of current service offerings based on the General Price as shown below. It is the policy of the Grasso Funeral, Memorial and Cremation Services that no client family will ever be charged for services not rendered, or merchandise not provided, including all cash advance items. All charges and fees shown in the Quick Reference Guide **WILL BE** itemized to each client family on the Statement of Goods and Services showing all expenses. If there is any item which the family does not wish, and it is not required to perform the selected service arrangement, then it will be removed prior to the completion of the arrangement conference.

## Merchandise

### Burial Casket Prices:

The use of caskets for burial began hundreds of years ago as a means to safely transport and care for the deceased family member. Things have not changed throughout the years and today, as before, the traditional purpose of a casket is to provide a primary focal point during the service while also providing a degree of protection for the deceased person. Caskets are primarily made of wood and/or metal, each having its own distinct characteristics.

## Rental Casket for Cremation

In recent years the popularity of cremation has grown for many reasons, one being the high cost of cemetery and burial fees. Our goal at Grasso Funeral, Memorial, and Cremation Services is to provide an option for our Client/Families who wish to have Traditional Funeral Cremation Services and not be burdened with the purchase a casket. The rental casket is *only* available with the use of the alternative container required by the crematory.

Rental Casket for Visitation and/or Services	Includes the alternative container with the casket fabric lining and pillow.	\$495.00
Alternative Container for simple non-ceremonial Cremation	Minimum cardboard container. No lining or pillow and meets the requirements of the crematory.	\$100.00

## Outer Burial Containers

Outer Burial Containers, sometimes referred to as Burial Vaults, are required by all cemeteries. The purpose of an outer burial container is to protect the casket once it is placed in the ground. No representations or warranties regarding outer burial containers are made by the Grasso Funeral, Memorial, or Cremation Services. Any warranties implied or expressed are those of the manufacturers.
